

NADEEM SALEEM

Senior Unity Developer | Lead Game Developer | AI-Enhanced Games

Lahore, Pakistan • +92-344-7166460 • nadeemsaleem.bwp@gmail.com
linkedin.com/in/nadeemsaleem • nadeemsaleem3.github.io/nadeemsaleem3

PROFESSIONAL SUMMARY

Senior Unity Developer with 8+ years designing, optimising, and shipping 50+ Android & iOS games (5M+ downloads, 4.2★+ ratings). Expert in modular game architecture, performance profiling, IL2CPP builds, mobile GPU optimisation, and monetisation strategy. Proven team lead and mentor. Currently pursuing an MS in AI Engineering at Quantic, applying agentic AI, procedural generation, and intelligent NPC systems to next-generation games. Open to Senior and Lead Unity Developer roles.

TECHNICAL SKILLS

Engine:	Unity3D · URP · ShaderGraph · Addressables · ScriptableObjects · Object Pooling · IL2CPP · DOTS (familiar)
Languages:	C# · C++ · Python · JavaScript
Mobile:	Android & iOS — full App Store / Play Store publishing, compliance & build automation
Performance:	Mobile GPU optimisation · memory profiling · IL2CPP · asset bundling · CI/CD for Unity
Multiplayer:	Photon Engine · Firebase Realtime DB · prototype-level (2 prototypes built)
Monetization:	Unity Ads · AdMob · IAP · KPI-driven monetisation · Firebase & Unity Analytics
Architecture:	SOLID · MVC · Design Patterns · Modular Systems · Plugin Development · Git workflows
AI / ML:	Agentic AI · Procedural Generation · Intelligent NPCs (MSAIE active) · REST APIs

PROFESSIONAL EXPERIENCE

Freelance Game Developer

May 2026 – Present

Kogi Arts · USA · Remote

- Building Living World Creation/Observer Sim prototype — Bubble World, where the player creates environmental conditions and observes how life responds, with the Primary Soulform interpreting consequences.
- Designing backend server infrastructure and mobile companion app integration.
- Focused on god-game influence mechanics and nature-simulation observation systems.

Freelance Game Developer

Oct 2025 – Feb 2026

Najma Studio · Sydney, Australia · Remote

- Built prototype for Pixoulated — a top-down 2D narrative puzzle game for PC in Unity.
- Designed circuit-based puzzles that activate world elements, grounded in story and the protagonist's emotional state.
- Focused on expressive mechanics and deep narrative integration throughout the prototype.

Senior Unity 3D Game Developer

Apr 2021 – Nov 2024

Game Tap Studios · Lahore, Pakistan · Full-time, On-site

- Shipped 10+ mobile titles across Android & iOS (3M+ downloads, 4.3★ avg.) — owned full App Store & Play Store publishing lifecycle end-to-end.
- Led and mentored 4+ junior developers, cutting bug-related rework by 30% through structured code reviews and engineering best practices.
- Architected modular gameplay systems with ScriptableObjects & Addressables, reducing cross-project dev time by 20% across 5+ titles.
- Boosted runtime performance by 25% via IL2CPP builds, mobile GPU optimisation, memory profiling, and core system refactoring.
- Improved stakeholder decision-making speed by 40% through rigorous feasibility assessments and accurate estimates.

Senior Unity 3D Developer

Nov 2019 – Mar 2021

Rational Verx · Lahore, Pakistan · Full-time, Hybrid

- Built 2 multiplayer prototypes using Photon + Firebase, demonstrating scalable real-time architecture — not shipped to production.
- Slashed app crash rates by 45%, directly improving user satisfaction and long-term retention.
- Built custom Unity editor tools cutting designer iteration cycles by 35%, accelerating content pipelines.
- Lifted monetisation KPIs via Unity Ads, IAP, Firebase Analytics, and third-party API integrations.

Unity Game Developer

Jan 2019 – Jul 2019

Xcentric Business Systems · DHA Lahore · Full-time, On-site

- Implemented gameplay mechanics across multiple titles, growing daily active users by 15%.
- Applied object pooling & optimised asset loading, improving runtime performance by 20%.
- Led technical problem-solving during high-priority releases, shortening release cycle time by 10%.

Unity Game Developer

2016 – May 2018

Cybis Technologies · Lahore, Pakistan · Full-time, On-site

- Developed educational & simulation games with engaging casual mechanics, reaching 500K+ users.
- Refactored legacy codebases into modular components, cutting feature expansion time by 25%.
- Delivered complete UI/UX systems with design teams, raising average player session time by 12%.

SELECTED PUBLISHED GAMES

Long Road Trip Car Driving Sim

Google Play

500K+ Downloads | 3.7★ | Role: Senior Unity Developer

Open-world driving sim with vehicle repair systems, fuel management, off-road survival, and monetisation via ads & IAP.

Link: <https://play.google.com/store/apps/details?id=com.gt.longtrip.road.drive>

Ultimate Motorcycle Dealer Simulator

Google Play

100K+ Downloads | 4.3★ | Role: Senior Unity Developer

3D tycoon sim — bike buying/selling, garage customisation, and idle business mechanics with advanced physics.

Link: <https://play.google.com/store/apps/details?id=com.bfg.bike.dealer.job.tycoon>

Car Dealer Job: Car Games

Google Play

100K+ Downloads | 4.0★ | Role: Senior Unity Developer

Used car dealership simulator with junkyard salvage, full garage repair pipeline, and showroom expansion systems.

Link: <https://play.google.com/store/apps/details?id=com.bfg.car.dealer.job.car.game>

Wild Horse Family Life Game

App Store

4.5★ Rating | Top-rated | Role: Senior Unity Developer

Horse ranch simulation with family-life mechanics, open-world exploration, and cross-platform mobile optimisation.

Link: <https://apps.apple.com/us/app/wild-horse-family-life-game/id6465952635>

Triple Tile Match Mahjong

App Store

4.8★ Rating | Puzzle / Casual | Role: Unity Developer

Hybrid-casual puzzle title with tile-matching mechanics, smooth UI systems, and retention-focused progression loops.

Link: <https://apps.apple.com/us/app/triple-tile-match-mahjong-game/id1616614400>

Full portfolio of 50+ published titles: nadeemsaleem3.github.io/nadeemsaleem3

CORE COMPETENCIES

Gameplay Programming (Casual · Hyper-Casual · Puzzle · RPG/RTS exposure) • Mobile Optimisation & IL2CPP • Modular Game Architecture • Game Monetization & Analytics • Team Leadership & Mentoring

EDUCATION

MS, AI Engineering (MSAIE) — Qantic School of Business and Technology — 2026–2027

Focus: Agentic AI · ML Deployment · Intelligent Game Mechanics · Data-Driven Player Insights

Master of Information Technology (M.IT) — CGPA: 3.42/4.0 — Virtual University of Pakistan — 2014–2016

Bachelor of Commerce (B.Com) — [Islamia University of Bahawalpur](#) — 2008–2010

KEY CERTIFICATIONS

- Unity Certification Course — Programming Hub (Feb 2020, Credential ID: 1655943)
- Machine Learning Certification — Programming Hub (Dec 2019, Credential ID: 17873127)
- Artificial Intelligence Certification — Programming Hub (Feb 2020, Credential ID: 3326460)
